Office Action Summary

Art Unit: 1714

1 The amendment and declaration received October 8 and October 23, 2002 respectively have been made of record. Claims 1-18 are pending

2 The rejection under 35 USC 103 made in the previous Office Action is withdrawn in view of applicant argument.

3 The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4 Claims 1-8 and 11-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 and all claims dependent thereon recites "ABA type block copolymer". The use of the word "type" render the claims indefinite.

Claim 1 vacuously refers to the polybutadiene segment as B or B<sup>1</sup>.

Clarification is required.

5 The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

6 (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7 Claims 9 and 10 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by

Tajima et al.

Tajima et al disclose composition as claimed in the rejected claim (see example 2, Table 1).
